MOISTURE ANALYZERS

PRECISA DNA: ZERO COMPROMISE

Laboratory and industrial technicians are aware of the significance of the results they provide. That is why they are unwilling to accept any compromise in their field of work. This is precisely why leading specialists around the world place their trust in Precisa and have done for decades.

PRECISA DNA: MOISTURE ANALYZER

Moisture Analyzers from Precisa - for efficient measurements and accurate results. As the leading manufacturer of thermo-gravimetric analytical equipment, Precisa excels with an extensive range of moisture analysis equipment, meeting highest demands in research, production and quality control.

PRECISA DNA: SWISS PRECISION

Precisa products are prime examples of Swiss perfection and reliability. They are tried and tested in both demanding laboratory environments and industrial applications, and are subject to rigorous quality controls throughout the entire manufacturing process. Precisa invests continuously in developing new technologies and employs a highly qualified team. The result is a state-of-the-art range of precision instruments for the most exacting demands.

HIGH PERFORMANCE

Moisture and water content have a defining influence on the quality and processing of materials, as well as on the price of raw materials and finished products in many industries including food, animal feeds, chemical and pharmaceutical products, construction materials etc.

The use of compact and robust precision moisture measuring instruments in the laboratory and in production increases efficiency and saves time and costs. Furthermore, productivity is enhanced by the fully automatic moisture analysis of samples, and the corresponding generation of measurement documentation. All models of the Series 365 EM, 330 XM and 335 XM provide fast, error-free moisture analysis, using highest degrees of measurement performance and precision.

Simple to use and service-friendly to maintain, the Series 365 EM, 330 XM and 335 XM are the results of Swiss precision in engineering and production, which guarantees reliability, robustness and an extensive life of error-free operation at highest levels of precision.

SERIES 365

With model EM 120-HR, Precisa is setting new standards in the demanding area of high-end moisture analyzers.

The flagship model combines ease-of-use and sophisticated customizing features for advanced and most demanding applications.

EM 120-HR is an innovative, high-tech moisture analyzer, which includes latest technical developments, unique performance features, best user-interface in a modern design, yet in a compact form with a small footprint. Those users who will not accept any compromise in their working environment may enjoy the reassuring certainty that for many years they can rely on an extremely accurate instrument which features the latest technology and renowned Swiss quality. Day after day.

SERIES 365

Compact and Modern Design

Choice of Heating Source

Graphic Display for Easy Guidance and Real Time Results.

PRECISA EM 120-HR

Readability 0.001 % / 0.01 %

The EM 120-HR instrument for fast and accurate moisture analysis with a wide range of methods; sophisticated and simple to operate, complying to the most stringent standards.

Highly Precise Technology

- Weighing range 124 g
- Adjustable readability: 0.1 mg / 0.001 % and 1 mg / 0.01 %
- High temperature range up to 230ºC
- Automatic self calibration system (SCS)
- Bright graphic display
- Extended memory capacity, 100 methods
- Choice of heat element: halogen, infrared, infrared dark radiator
- USB and RS232 interfaces as standard
- Selectable heating modes: standard, boost, smooth

Intuitive User Interface

- Freely programmable display
- Graphic presentation of the analysis
- Choice of auto stop criteria settings

Quality Assurance

- Compliance with GLP and GMP
- Numerical and statistical analysis available
- Real-time observation of analysis

Versatile Connectivity

Advanced slide-in module technology: USB Host, Ethernet wired, Ethernet wireless, Bluetooth and others.

Robust and Simple to Operate

Easy Sample Access

Menu-driven, Screen-guided Applications

PRECISA XM 60 / XM 66 / XM 50

Readability 0.001 % / 0.01 %

High-end units for customers with limited number of methods. These instruments are robust, provide a high degree of precision and are simple to operate.

The Versatile All-Round Moisture Determination Solution

- Sturdy construction, perfect for all laboratory and production environments
- Weighing range up to 310 g
- Readability up to 0.1 mg / 0.001%
- High temperature range of 230°C
- Temperature step of 1°C
- High contrast, bright vacuum fluorescent display
- Memory storage of up to 20 methods
- Interface RS232
- Choice of radiation heat source: halogen, infrared, infrared dark radiator
- Selectable heating modes: standard, boost, smooth

Simple, Fast and Accurate

- Variety of start-up and end-point control selections for optimum control
- Language independent prompts operated by symbol keys
- Easy access sample holder

Quality Assurance

- Results printed in GLP guideline format
- Numerical and statistical analysis available
- Real-time results shown in display
- Special version without glass for the food industry
- XM 66 with increased weighing range of 310 g and special software for the rapid moisture results for sewage and waste water treatment plants
- XM 50 the all-rounder with strain gauge weighing cell, appropriate for rough working environments.
